

# The Rydings

## **Home Owners Association**

PO BOX 9245, Warner Robins, GA 31093-9245

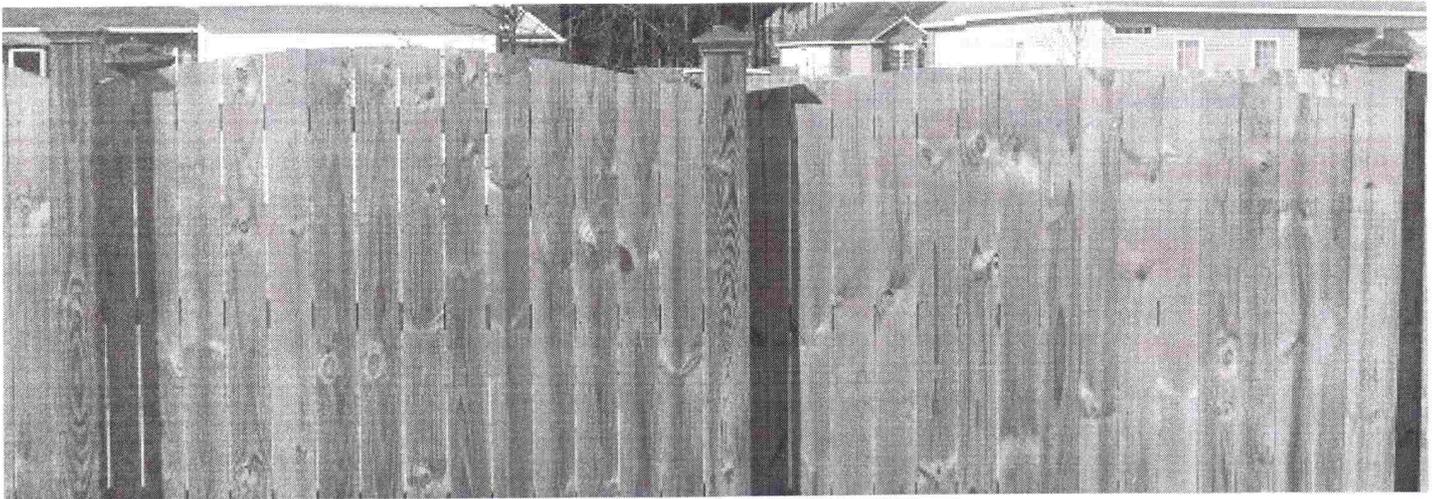

### The Rydings Architectural Control Committee Approved Fence Design

#### Fence

**Material:** Pressure treated wood  
**Height:** 6 ft  
**Posts:** 4x4 inside perimeter  
6x6 any side that faces the street (must be exposed)  
**Caps:** Copper (affixed to all 6x6 exposed posts)  
**Design:**

- Side that faces street must exhibit a convex arch (the highest point of the arch to be centered in-between the two 6x6 posts.
- Fence must be erected so that it outlines the entire perimeter of your property starting and terminating at the rear corners of the home.
- Perimeter boards must be installed in a vertical fashion with the boards affixed to the outside of the fence framing.

**Stain/Paint:** May be left natural or if stained/painted then any natural shade of brown only.

Any deviation from the listed design elements must be approved the architectural control committee before work begins. The ACC may be reached by mail using the address above, by email at: [therydingsacc@therydings.info](mailto:therydingsacc@therydings.info), or using our on-line request form located on our website at [www.therydings.info](http://www.therydings.info).
